

"Whatever you ask in My name, that will I do, so that the Father may be glorified in the Son." John 14:13

## Resources to Connect with Vulnerable Students

We prayed for students who hadn't yet connected through distance learning to connect with a caring adult from their school. Last month a 4J middle school hired two educational assistants, providing more capacity to reach out to the school's top 50 most disengaged kids.

Five staff were each assigned ten students to personally reach out, build relationship and remain connected the rest of the year!

## COVID-19 Contained at The Mission

We prayed for the Eugene Mission, as they worked to contain a COVID-19 outbreak among their guests. Recently, they received commendations from Lane County Public Health for their response. Here's how Director Sheryl Balthrop saw God answer prayer:

"The last campus-wide tests yielded zero positive results. It seems that the virus spread was contained! Even better, of the total 99 guests and 2 staff members who tested positive since early December, only a few have had mild symptoms and none have required notable medical assistance. Most have had no symptoms at all. We have truly experienced the peace of God that transcends all understanding. Thank you for praying!"

## Lower COVID-19 Numbers

Since Mid-January, Oregon COVID-19 cases have declined, as well as Lane County hospitalizations. Also, the National Guard was deployed to assist with vaccine distribution, and we are praying that God would continue to lead the process, and stop the spread of the virus!

## New Springfield Mayor

We prayed for God to lead the selection of the next Springfield Mayor, and Sean VanGordon was selected as interim mayor. Let's pray that God would give him wisdom and grace for his new role.
